RED LETTER SALE.

It is the custom of a great many Clothing Houses, when the end of a season comes, to take all the old chestnuts that have laid on their shelves since the days of the "bull teams," pile them on a counter and offer them at "great bargains." Now, with us it is different. At the end of a season our buyer goes to market and there buys just exactly the same goods he bought at the beginning of the season for about one-half the amount he paid for them at that time Our buyer is now in mark+t and has shipped us per express as large a stock of flannel and percale shirts and underwear as any other house in Helena carries at any season of the year. Do not fall into that common error of thinking that because goods are cheap they are no good, for a single examination will convince you that you are mis-

OUR FLANNEL SHIRTS. Why is it, you ask, that Harris always has more flannel shirts than any other store in Why, simply, my friend, because he sells more than all the other houses in Helena put together, and therelarger stock; also, my kind friend, because he always carelties in the market, and in order to do that must always be getting in new goods by ex J. press. We are now showing French flannels at \$2 and \$2.25, and a line of as beautiful silk stripe shirts as has ever been seen in this market, at \$2.25. The latest novelty, however, is a handsome Madras shirt, fine nobby patterns, well made, guaranteed not to shrink or fade, at \$3 exactly the same as brought \$5 sixty days ago They are Pluck them before they fall

OUR PERCALE SHIRTS In this line we absolutely defy competition. Nothing can equal us. We have a larger stock and better assortment of] patterns than any house between St Paul and Portland. Ours are not old, shelf-worn goods, but new, beautiful patterns and the latest novelties to be found in the eastern markets. Bought from a house that needed money and at less than one-half of what they were worth, we now propose to the same way. We have divided them into three linesat 75c. Not one of these shirts ever sold before for less than \$1, and some as high as \$2 They are piled in our doorway Give them a glance as you pass and you will see that we mean
